M'ADOO TO JEWISH CHILDREN.

EVEN ROOSEVELT MUST OBEY PUSHCART LAWS, HE SAYS.

Adds That They Need Not Fear Oppression Here-Spends an Afternoon at the Educational Alliance and Takes Schmittberger With Him on the Trip.

Police Commissioner McAdoo visited the Educational Alliance, in East Broadway, yesterday afternoon, was escorted all over the building by Supt. David Blaustein and was greatly impressed with what he saw there. He also made a speech to a big crowd of immigrant children, most of whom were between 10 and 14 years old, and who have been in this country for less than a

Your parents, who suffered much in the old country from bad and wicked men, will tell you of their persecutions. It is a story of race hatred, mediæval conditions and sometimes riot, murder and heartless treatment. In this story government appears as a hard and wicked thing. The army, the navy and the police in their uniforms represent cruel laws and gross injustice.

"Your parents will tell you that before they came here they could not go to school or to the synagogue; that when they got money it was taken from them; that they were driven from one part of the country to another or perhaps out of the country altogether, and that they were not a part of it. They will tell you that they had no love for the flag.
"Do not let this bloody story make you

believe that all governments are tad and that all laws persecute and deprive the people of justice. I want you all to understand that in this country the laws are just laws, honestly carried out by men who are not cruel and do their duty because it is for law and order, for the country and the flag.

'This is as bad as in the old country.' Don't get that idea or read books that make you think like that. The law is for your good and mine. The soldiers and the police are a part of the people, and have to obey as well as enforce the laws.

"My policemen may have to arrest men with pushcarts because they obstruct traffic, but I want to tell you this: If President Roosevelt himself came down into Rivington street and got in the way with a pushcart, so that he stopped the wagons and people who were walking there, I'd say to Inspector Schmittberger, who is there with me now, 'Arrest him,' just as though he were a Russian who came into this country only yesterday. Now, you little Hebrew boys and girls are going to be a great power in this country. With your great patience, your industry and your thirst for knowledge, you will do much in framing the future of the United States. To be really happy and patriotic there are two or three things that you must do. You must be honest and industrious. You boys must cheat no one, not even yourselves. You must be fearlessly honest in voting and in bargaining. You must not vote for any person or any thing that you do not believe in. That is the great foundation stone for individual advancement. I see no limit to dividual advancement. I see no limit to the possibilities of your people in this coun-try, provided you are true to the best tradi-tions of your race, and may God bless you

ROSSEAU WANTS TO TESTIFY.

Man Accused of Sending Dynamite by the Umbria Would Take the Stand.

Gessler Rosseau, the Chicagoan, who says that his right name is Russell, accused of sending the dynamite that was found in a box on the Cunard steamship dock just before the Umbria sailed on May 9, 1903, thinks he ought to go on the stand to convince the jury of his innocence.

The prosecution's case is almost closed, and it is now a question whether he becomes witness or not. His counsel, Charles M. Kiefer, wants to wait until the prosecution has closed its case before he decides one way or the other.

Rosseau, who is a quick witted chap, coached his lawyer all yesterday in the trial, which is going on before Recorder Goff in General Sessions. One instance shows the workings of Rosseau's mind. Assistant District Attorney Smythe tried to get in Russian Jews, and the Commissioner told as evidence a photograph of the machine them that in this city and country they would all have a square deal.

"Dr. Blaustein has pointed out to you," said the Commissioner, "that I have no which Rosseau blucked Mr. Kiefer's sleeve and whispered in his ear. withdraw the objection, said Mr.

The photograph does not show that the

machine was connected in a way to explode the dynamite. This Rosseau noticed and thought would help his case. It is a crime to send dynamite to a transportation com-pany without notifying the officials, how-ever, and it is on that charge that Rosseau

is being tried.
George E. Murray, Superintendent of Combustibles, testified yesterday that dynamite was found in the box. He told of taking the machine apart, explaining the different parts of its mechanism. Mr. Kiefer wanted to know Mr. Murray's test for dynamite.
"I can tell by looking at it," said Mr.

"Well. I can also tell by putting my finger on it. I always get a headache."

Mrs. Clara Cleary, with whom Rosseau boarded for two weeks, at 368 West Thirty-first street, before the dynamite was sent, said that Rosseau had sawdust in his room and seemed to be working all the time.

"Then over noises came from the room." Then queer noises came from the room,

William Loft, who took the box with the dynamite to the steamship pier, couldn't identify Rosseau as the man who gave it to him. Neither could his assistant.

Police Captain Donahue of Philadelphia told of the arrest of Rosseau there. Mr. Smythe tried to get in a written confession by Rosseau, but it wasn't allowed.

GOV. STOKES TO BETA THETA PI. Notslest of College Dinners Hears Wise

Sayings From New Jersey. Edward C. Stokes, Governor of New Jersey, was the chief guest at a dinner tendered him by the Beta Theta Pi at the Hotel Astor last night. It was one of the most enthusiastic and vociferous gatherings of its kind ever held in New York.

There were upward of 500 college men at the dinner. They came from East, and West, South and North. Each college had a table and some two or three. Most of the earlier part of the evening they spent in trying to outyell the other tables. Now and then to let off steam they got together, hands on each other's shoulders, and marched around the room, yelling together. People in other parts of the hotel thought the roof should be raised a few inches

to let the noise escape.

The Governor didn't tell the name of the brother, but it leaked out that W. B. Barickes of Jersey City had been told amid the festivities that he had been appointed a member of the State Board of Education.

Jury Means Business, Says Cudaby's Manager, After His Examination.

CRICAGO, March 24 .- From the trend of questions asked me I believe that the Grand Jury is seeking to indict, and is not making a plain investigation for purposes of general information," said Michael R. Murphy, Cudahy's general manager in the West, after he left the Grand Jury room to-day at the Beef Trust investigation.

"While the set questions asked were general in nature, some points raised showed clearly that the jury is going deeply into the subject, and the incidents upon which information is being sought are of a most significant nature. The jury means business. 1 was even questioned about the crop conditions. Sales and shipping were

two subjects touched." Manager Murphy was closely examined Manager Murphy was closely examined regarding the cost of slaughtering and dressing beef and careful inquiry was made into the profits from dressed meat and by-products. F. Wilkins, manager of the beef department in the same plant, working under Murphy, was asked as to the handling of beef, its cost on the hoof, sale prices, yield of profits for meat and by-products.

Heustis Succumbs After 15 Days-Little Hope for Her Mother.

Miss Luella Huestis, who with her mother, Mrs. James H. Huestis, had been lying in the Presbyterian Hospital in a strange state of unconsciousness for fifteen days, died yesterday morning. The hospital physicians and Coroner's Physician O'Hanlon, who performed an autopsy last night, said gas poisoning was the cause of death. The nother is in an extremely weak condition and is expected to die at any moment.

The condition of the two women has been a puzzle to the physicians who are working on the case. Ever since March 10 they have been in a comatose condition.

Mrs. Huesti's and her daughter belonged to a prominent White Plains family. They lived in the Tompkins residence, just outside the town, with Mrs. Huesti's mother, Mrs. A. W. Tompkins. They were members of the Episcopal Church of White Plains, of which Archdeacon Van Vliet is rector, and they were prominent in local society. of which Archdeacon Van Vliet is rector, and they were prominent in local society. On March 8 they visited Mrs. Huestis's brother-in-law, Henry W. Helfer, a lawyer, of 234 West 131st street, this city. On the morning of Friday, March 10, they did not appear for breakfast. An investigation was made and the mother and daughter were found in their room unconscious, with year account of the property of the control of the contr

but without avail. Other physicians were
called in, and finally, as the victims did not

revive, they were removed to the Presbyterian Hospital.

There they were placed in separate wards
and watched with the closest attention.
Day after day they lay to all appearances

Yesterday was the fifteenth day that they lay in their strange, trancelike state. At 8:30 A. M. Luella, the daughter, died, but it was several minutes before Drs. "We have had cases like this before," he said, "but the patients did not remain unconscious for so long a time. The only explanation is gas poisoning."

After the autopsy last night Coroner's Physician O'Hanlon said:

"The cause of death was softening of the lenticular nucleus which is that part of the brain which is affected most directly by illuminating gas. The arteries cannot supply the brain with blood and the patient lies unconscious until death. The symptoms are the same in every case of gas poisoning."

DIVORCE WITNESSES ARRESTED. Plaintiff and Woman Accused of Giving Perjured Testimony.

Mrs. Ara Niest of 168 West 107th street and Charles H. Darrell, a marble cutter, were arrested yesterday by Detectives Reardon and Prantner of the District Attorney's office, charged with perjury.

The offence is said to have been committed in a divorce suit brought by Darrell against his wife, Jennie, last November, which was tried before Justice Leventritt of the Supreme Court.

Darrell's employer, Charles H. Parsons, marble cutter, of 67 East 129th street, was named as corespondent. At the trial the Niest woman testified that she did not know Darrell and had never seen him, and Darrell testified likewise. Two months later Mrs. Niest made an affidavit that she had known Darrell for several years and that he had lived with her at her flat. On the strength of that affidavit Justice Leventritt granted a motion for a new trial, a jury

granted a motion for a new trial, a jury having decided in favor of the plaintiff.

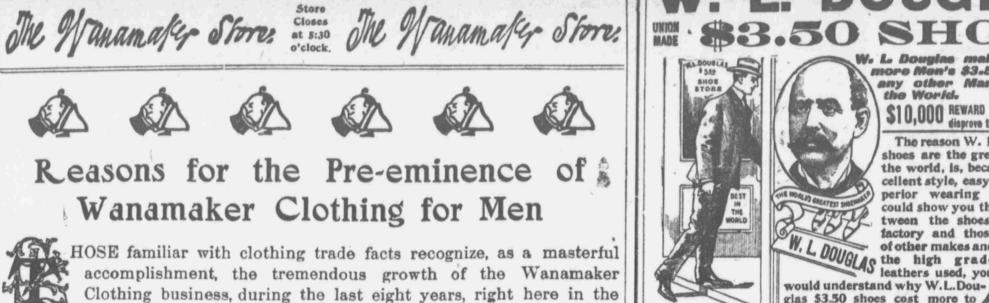

Justice Leventritt sent all the papers to District Attorney Jerome with the suggestion that a therough investigation be made. Ten days ago Jerome's detectives were sent out to get the Niest woman, and yesterday they arrested her. They also found Darrell, for whom they had been searching, at the office of his attorney. Darrell was a witness at the police court hearing yesterday before Magistrate Whitman. He was arrested in court on the perjury charge. He and the woman were held in \$1,000 bail each for trial.

A month ago Darrell sued Parsons for \$25,000 for alienating his wife's affections. This and the new divorce trial are now pending.
